TITLE: Genetic criticism and author philology: some cases in the Portuguese context

INSTRUCTOR: Enrico Martines, João Dionísio

CFU: 2

SHORT DESCRIPTION:

The workshop will introduce the basic concepts related to the attention that genetic criticism and author philology (in their respective fields and with their respective methodologies) have paid to the manuscripts of contemporary authors and will present to the participants specific cases of Portuguese authors of the 19th and 20th centuries. The aim is to make students aware of the importance of the text as the result of a process, and to introduce them to the practice of critical and genetic editions.
